Stromer  
PROPRIETOR

# Garden Success

## HALE-HAVEN

No doubt the greatest peach ever introduced. Large, sweet, very firm, wonderful color, and the trees start to bear young. The photograph of these Hale Havens has been reduced to one-half size. See page 16 for full details.

# Wayzata Everbearer

**The HONEY-SWEET Berry—Red to the Heart—Small Hulls—No Green Tips—Disease Free—  
3 CROPS IN 18 MONTHS!**

WAYZATA challenges the world in flavor, size and productiveness. Newly set plants will start to bear within 60 days, and continue for nearly 6 months, without any let up, providing they are cultivated once a week, and all weeds kept out. This variety adapts itself to most any type of soil. The plants are hardy and tough. Their dark green leathery-like leaves are rarely attacked by the common strawberry plant diseases.

Wayzata plants set in the spring of 1942 will start to bear within 60 to 90 days, and bear all summer up to severe killing frosts. They will again bear a full crop in June, 1943, and another in the fall of 1943. Three nice big crops in 18 months. It is not an unusual thing to have fresh strawberry shortcake for Thanksgiving days—both of them. 100 plants will be sufficient for an average family.

**Bears From July  
Until November  
Frosts**

Wayzata is fully as drought-resisting as the old Senator Dunlap variety. Wayzata differs from most all other varieties in this way. It makes very few new runner plants, but stools out all around the mother plant. These stools are really the new plants, and start right in to bear all summer long. If Wayzata is set real early in the spring, or the fall before, they will make quite a few runner plants. This variety is considered, however, a poor plant maker and this is the reason for them being priced higher than other everbearing varieties. 100 days after the plants are set it is possible to count over 20 fruit stems, and more buds and blossoms coming out. The plants will be loaded with ripe berries, green ones, blossoms, and buds all at the same time.

Wayzata fruit shipped from this section during the summer and fall (1940), sold for \$2.50 to \$3.75 per 16-quart case. They have been retailing for 25c to 35c per quart at roadside stands. 100 plants will supply you lots of berries for table use and 1000 plants or more will make you more money than anything you have ever tried. It takes 8000 plants to set an acre. You have never really tasted canned strawberries or strawberry jam till you make some out of this Wayzata variety. No other variety will do after that, we are sure. Be sure to try 100 at least this year. The supply is limited.

## Majestic A New Introduction

Here is a brand new strawberry, and a good one. Patented October 24th, 1939. The one outstanding feature of the Majestic is that it out-bears every other variety. Here is how it compares with other good varieties.

| Name     | Length of Row | Total Quarts |
|----------|---------------|--------------|
| Majestic | 320           | 229          |
| Catskill | 300           | 126          |
| Fairfax  | 600           | 137          |
| Premier  | 640           | 156          |

These tests were made by Mr. D. A. Tucker, assistant Horticulturist of Blacksburg, Va. Blooms late. Ripens midseason. Berries extremely large, conical shape. Bright golden red in color, and fine firm texture. Has superior shipping qualities. Has a sweet wild strawberry flavor. Plants disease free. This is a patented variety, and plants from this variety cannot be sold without a permit from the patent holder. Only 4000 needed to plant an acre. Bears nearly 3 times as much as Premier.

# Giant Mastodon Everbearer

## 3 Full Crops in 18 Months 3 Big Profits

Mastodon has been with us for about 20 years, and in all these 20 years we have never known them to fail on a full crop 5 to 6 months long the same year they are set out. The size of the berry is like Wayzata—very large. It is of very good quality, red all the way through, and fine flavor. Bears as heavy as Wayzata, and make many new runner plants. These new runner plants will also bear towards fall, and then you have a real picking row. This wide row will make fine picking the next June as a spring berry. Mastodon does not require any special soil, care or petting. They grow most anywhere, or on any soil that will grow garden or potatoes. They sell like "hot cakes" on roadside stands, or on any market. It will take a hard freeze to stop the Mastodon from bearing. White frosts will never hurt them at all. A field of Mastodon in full bearing in late November is a sight never to be forgotten. Even after a light snow one can go out and find ripe berries unharmed.

## GEM GIANT EVERBEARER

**Bears 60 Days After Planting**

Gem differs a little from Wayzata and Mastodon in this way. Gem prefers a clay or a heavy sandy loam soil, where Wayzata and Mastodon do well on most any kind of soil. Gem also does best when grown in the hill system, so for best results keep all runners nipped off. The berries are large and smooth, and of a light red color, that ripen up even all around. Bears equally as heavy as Mastodon, and the berries get larger towards fall. Runner plants will bear as well as the mother plant. Gem is a good plant maker. Plants as a rule are smaller than Mastodon or Wayzata. Makes a good June-bearing variety. Bears 3 crops in 18 months. Gem makes a beautiful quart of berries as you can see to the right. This is an actual photograph. Berries like these sell for 50c a quart around Thanksgiving, and bring good prices all summer long.

Premier  
Very Scarce

# Stromer's PREMIER

## The Most Popular Berry Ever Introduced

If you plant STROMER'S PREMIER you will get the first berries on the market. They will be bearing heavily before other varieties begin. Your biggest picking will be when berries are in good demand and are bringing top prices. Premier will grow anywhere. The plants are sturdy and long rooted, a good drought-resister. The berries are very large, and hold their size to the last picking. The flavor cannot be beaten.

In Premier we offer you the greatest early Strawberry of all time. However, the early ripening of this variety is only one of its many good features. It is immensely productive and, unlike other early ripening Strawberries, the fruit produced by Premier is of the very finest quality, color, texture and flavor; and last but not least, every berry is large in size and uniform in shape. For every purpose that a Strawberry is wanted, Premier is supreme—eating, canning, preserving, distant and local market—no other variety can give you any more pleasure, satisfaction or profit. Premier succeeds everywhere and never fails to give a big crop of the very finest berries. The foliage is tough and healthy and grows tall and rank, covering the blossoms and berries, and protecting them from frost and scalding sun.

These prices are net. NO DISCOUNT.

Fairfax

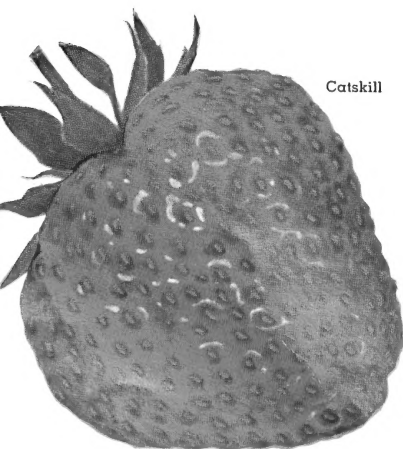

## CATSKILL

In all sections except the South growers can plant Catskill with confidence of good results. As a sure cropper it ranks with Premier, and is just about as productive. Berries are large, round and smooth. It is a medium late variety, borne on long upright stems that keep the berries up off the ground. This prevents sandy berries during rainy weather, and also makes picking easier. Berries ship well, and the quality is extra good. Berries are light color, making it a good commercial variety. As you know the market no longer wants dark colored berries.

## AMBROSIA

SOMETIMES CALLED "FROST KING"  
The Perfect Late Variety

The Ambrosia Late is absolutely the very best late Strawberry that we have today. It is also one of the very largest Strawberries that we have ever grown. Thirty berries are known to fill a quart box. Plants grow tall and vigorous. Have seen them growing on good land, where the leaves and fruit stems would be 14 inches tall. As the berries ripen and get heavy, the fruit stems will turn down, and what a sight to look at, when you brush the leaves to one side. At last we have found a real good late Strawberry to lengthen the Strawberry bearing season.

## FAIRFAX

Fine for  
Shipping

This is one of the finest Spring bearing strawberry grown. It is an extra good home use berry, and especially for canning and jam making, because it is nearly black. It is the darkest red strawberry we know of. It is so firm that one has to cut or slice them to get them to make juice.

Ambrosia

## Senator Dunlap

Senator Dunlap is an old well known variety that has made more dollars for berry growers than any other variety. It grows most anywhere, and is the toughest, healthiest and fastest grower of them all. Berries dark red, not so large as others, but the quality is fine. Wonderful for canning, as well as fresh. Sometimes listed as Dr. Burrill.

*Stromer's*  
*New*

**MONEY-MAKING**

*Boysenberry*

Boysenberry is the sensational new berry. It was introduced in 1932 in California. It is a cross between the California Loganberry, Raspberry, and Blackberry. Think of a berry that has a little of each of these fruits all in one giant, nearly seedless, beautiful wine-colored berry, with a flavor that you will never forget. They are sweet and juicy, yet firm enough to stand handling and shipping to market. The vines are hardy, and can be grown in the East and North, as well as in California and other southern states.

### Enormous Size

From a recent publication by the United States Dept. of Agriculture is the following statement: "Under favorable conditions, 50 of the largest berries will fill a quart box." Of course these 50 berries would have to be selected, and would not be the average. We would say that 75 to 85 berries would be average.

### Profitable

Whether you are growing berries for market or just a few in your garden, it will pay you well to get started right now. Twenty-five plants will be plenty for home use. Six hundred plants will set an acre, set 8 ft. by 8 ft.

Our 2-yr. bearing-age plants bear a year sooner—berries first year.

## Alfred Blackberry

**Stands 35° Below Zero**  
**Geo. Stromer, Originator**

Year after year, with diligent care, I have propagated these plants to such an extent that the fruit is now being supplied to the local markets at a fancy price, and is always in good demand. Last year I measured a good many berries that were over one and one-half inches long, and three inches around. Buy from the originator and get GENUINE ALFRED.

**IMMENSE SIZE.** The berries are twice as large as ordinary Blackberries, many of them 1½ inches long, and the finest flavored of all Blackberries. It is practically CORELESS, sweet and delicious. Very small seed.

**EXTREMELY HARDY.** ALFRED can be grown anywhere without winter protection, having withstood 30 degrees below zero, and not a single tip of a branch injured, while our other varieties were frozen to the ground.

**EARLY SEASON.** It ripens a week to ten days earlier than Eldorado and in productiveness it is in a class by itself. We have seen them bear a second crop. We picked many cases this year in September.

## The New MORRISON BLACKCAP

### LARGEST BLACKCAP RASPBERRY GROWN

Would you believe that there could be a Black Raspberry that would grow larger than the Cumberland? Well, there is one now called the Morrison Blackcap. This new variety was found growing wild in Girard, Penna., by County Agent Paul Crossman of Erie County. Mr. Crossman was attracted by its unusually large size, and its shiny jet black color. The berry is much larger than the Cumberland, many of them nearly an inch in diameter. Mr. Crossman says that the plants are very free from disease, and are vigorous growers. We have been fortunate in obtaining a limited amount of these plants for our own propagation purposes, but we are going to let a few of them go to our customers for 1942. Don't wait too long, as when our quota is sold,

Thornless Boysenberry

## LATHAM Red Raspberry

Commercial Growers' First Choice

This is beyond a single doubt the very best of all the red raspberries so far. Latham is large, some measuring an inch in diameter, firm, sweet, few seeds, and perfectly hardy. Stands 45 degrees below zero. Grows tall heavy canes that can carry the heavy load. Finest variety for commercial growers and home use. Prices below.

## INDIAN SUMMER Everbearing

This new two-crop or everbearing red raspberry was introduced by the New York Experiment Station. It bears in July like any other red raspberry, and also in the fall, beginning in September on the new growth, and continues till frost. The berries are large, conical shape, and of extra fine quality. This variety is by far the best of all the everbearing varieties so far. We have discarded St. Regis for this new variety. Prices below.

# Thornless Boysenberry

**All of the Good  
Qualities of the Regular  
Boysenberry . . . BUT NO THORNS**

This is the early ripening strain of Thornless Boysenberry with canes as smooth as a grape vine. RIPENS 10 DAYS TO TWO WEEKS EARLIER THAN BOYSENBERRY. The introducer claims even heavier yields from this Thornless Boysenberry than the common Boysenberry. This new strain Thornless Boysenberry is identical to the Boysenberry except that there are no thorns and it ripens earlier. This is a very good feature as the early berries bring more money. The Thornless is just as hardy, rugged and heavy bearing as its parent the Boysenberry. Vines grow 25 feet long, and this pretty apple-green vine loaded with giant purple beauties is a sight you will never forget, and after you taste a handful of them, other berries will go begging for a while. Delicious with cream and sugar, and when made into jam, it's the last word. Supply of plants still limited, so hurry.

## WHITE BLACKBERRY

Strange as it may seem, this is a real creamy white Blackberry. Mixed with the jet black ones for dessert, it makes a most wonderful dish. The fruit is about the size of Alfred, with few seeds and quite sweet when fully ripe. The bushes are good, strong growers and very productive. This is not a worthless novelty, but a fruit of real value, and should be in every garden.

1-yr. No. 1 plants: 20c each; 6 for 90c; 25 for \$2.50. 2-year-old bearing-age transplants: 35c each; 3 for \$1.00; 6 for \$1.85; 12 for \$3.00.

# Cumberland

## THE BUSINESS BLACKCAP

This is without question one of the most profitable and popular Black Raspberries ever grown. It is the one safe and reliable commercial variety because you can depend on a big crop regularly. We call it the "Business Blackcap" because it succeeds on all soils and produces its big crop year after year.

We have never known Cumberland to fail, and the best proof that it is a profitable variety is the fact that the demand for plants is greater every year and more Cumberlands are planted than all other varieties combined.

Cumberland is perfectly hardy and tremendously productive. The berries are extra large, glossy black, and not equaled by any other variety in quality, flavor or appearance, except Logan. Whether wanted for market or home use, we can recommend Cumberland to our most exacting customers. Disease free. Twice state inspected plants.

## Golden Queen

A beautiful large golden yellow Raspberry. Many prefer this variety to any of the reds or blacks, owing to its sugary sweetness, and unsurpassed flavor. Should be in every garden, its beauty and high quality placing it at the head for table use. The canes are hardy, vigorous growers, and heavy croppers.

Cumberland Blackcap

## Make Fruit Profits Quick

Our 2-yr.-old Cumberland Black Raspberry plants will bear you a full crop this year, as these plants are husky transplanted stock that are just loaded with fruit buds, and have a fine healthy root system so that when planted in some good soil, will produce beautiful fruit for you in July this year (1942). It is no longer necessary to wait a whole year for your plants to produce. Pay a little more and get the 2-yr.-old plants. We have a fine stock of these plants and the price is right. Make fruit profits quick. Have all the fruit you can eat and some to sell.

## SODUS The Perfect Purple Raspberry

There are several Purple varieties, but Sodus is the very best of them all, so we do not list the others. The berries are as large as Latham, firm, and sweet. Plants grow very rank and healthy, and nearly 100 per cent disease free. Ripen shortly after Latham, and sell on sight. It's a pleasure to pick these large purple caps.

### GUARANTEE

WE GUARANTEE that our nursery stock is first-class in every respect, free from disease, freshly dug, true to name, and to reach you in good growing condition. We will at our option either replace free of charge or refund your money on any shipment which arrives in bad condition, providing claim is made within 5 days after arrival of shipment, with a signed statement from your Express Agent or Postmaster, showing the extent of damage.

Our stock is carefully handled and full of vitality and, under ordinary conditions, should grow for you. But if it does not, owing to the weather and other conditions over which we have no control, we will replace it at half price the following season, if you notify us not later than October 1, 1942.

only **\$1.30**

LESS DISCOUNT

## BLUEBERRIES

**Delicious—Profitable—Very Ornamental**

Our Blueberries are far superior to the wild Blueberry or Huckleberry. These Blueberries grow in large clusters of the most beautiful blue color, plump, tender and practically seedless. The flavor of these cultivated Blueberries is simply delicious. Bushes will grow to the height of 8 feet. The plant itself is very ornamental.

### Jumbo Size

During the summer the foliage is deep satiny green, and against this background hang clusters of berries royal in their magnificence. During autumn the leaves turn bronze, and during the winter months the twigs are red. Buds are pink and open to white, bell-shaped flowers. **Two plants** should be set out to insure cross pollination, so we would not advise to set just one plant. We are offering 2-year plants that will start to bear the second year. Blueberries like these sell for 55c and 70c per quart on retail markets.

### Require Little Care

Blueberries prefer an acid soil containing an abundance of peat or other partially rotted vegetable matter. They also need a moderate supply of moisture, but good drainage. In other words, water must not stand where they are planted. If your soil is not already acid, this condition can be created by mixing in the soil, old sawdust, pine needles, or soil from the bottom of old wood piles. But the very best thing to use is our Blueberry grower. This is a sour fertilizer you should use for Blueberries, Evergreens, Azaleas, Rhododendrons or any shrub that requires an acid soil.

### Culture

**Directions** for the use of Blueberry grower for planting Blueberries or other plants that need an acid condition: Dig a hole large enough for the roots to have a full spread on the bottom, so the ends of the roots do not turn up. Have the hole at least 6 inches deeper than needed. Then pour 1 gallon of Blueberry Grower in the bottom with an equal amount of the top dirt, mix this thoroughly before putting the plant in place. Then use another gallon as you fill the hole up. If the soil is poor, use more of the Blueberry Grower. You will be pleased with the results.

Price: 2-bushel bag (about 100 lbs.), \$1.00, no discount. Carload prices on request.

### Blueberry Prices

2-yr., 2 for \$1.30; 4 for \$2.25; 10 for \$5.50; 25 for \$11.00; 50 for \$20.50; 100 for \$40.00.

## **STROMER'S EARLY 8 WEEKS PEAS**

This giant podded variety is so tender and sweet that they will melt in your mouth. The vines are dwarf and vigorous growers. Earliest of all and best of all, too. Try them now at this reduced price. Supply is limited, so order now. It's time to plant peas. They should be planted as soon as ground can be worked. Price, ½ lb., 25c; 1 lb., 40c; 5 lbs., \$1.50, postpaid. No discount.

## **LETTUCE**

Earliest Curled. Leaves light green, tender, and crisp. Best early forcing variety, or to be grown outside. Withstands extreme backward spring weather. None better. Price, pkt., 10c; oz., 20c. No discount.

## **CARROT**

This new early coreless carrot is the best. Half long, round, blunt. Fine grained, orange-red. Price, pkt., 10c; 3 pkts. for 25c. No discount.

## **RADISH**

Cavalier cherry-red radish is the best, and most profitable. Large, tender and crisp. It's all you could ask in a radish. Price, pkt., 10c; 3 pkts. for 25c. No discount.

## **WATERMELON**

King Of The Earlies. This medium sized, extra early striped variety is hard to beat for the northern part of the United States. Gets red clear to the outside and as tender and sweet as can be. Truly a wonderful melon. Price, pkt., 20c; oz., 35c; ¼ lb., \$1.25; 1 lb., \$3.00.

## **SPECIAL OFFER**

½ lb. 60-Day Sweet Corn  
1 Pkt. Cavalier Radish  
½ lb. White Seeded Beans  
1 Pkt. Rock-O-Honey Melon  
1 Pkt. Lettuce  
1 Pkt. Carrot  
1 Pkt. Beets  
1 Pkt. Watermelon  
½ lb. 8-Weeks Peas  
**ALL FOR ONLY**

**\$1.00** POST-PAID

WORTH \$1.60  
NO DISCOUNT

## **MUSKMELON, ROCK-O-HONEY**

Here is absolutely the last word in a melon. It's a cross of the Honeyrock and Hearts Of Gold. They are large, solid as a rock. Sugar-sweet, tender, fine grained. Smallest seed cavity ever seen. Golden orange-yellow. Price, pkt., 25c; 60c an ounce; ¼ lb., \$1.95; 1 lb., \$7.00.

## **60-DAY SWEET CORN**

This is the sweetest of all early corn. The ears are 7 to 9 inches long, well filled. The stalks are of a medium size, and several ears to stalk in good ground. Be the first one to market with corn by planting this variety. Big money maker. First early yellow corn sells for 35c to 50c per doz. Price, ½ lb., 25c; 1 lb., 40c; 2 lbs., 75c; 5 lbs., \$1.50, postpaid. NO DISCOUNT.

### **ALL GARDEN SEEDS ARE POSTPAID**

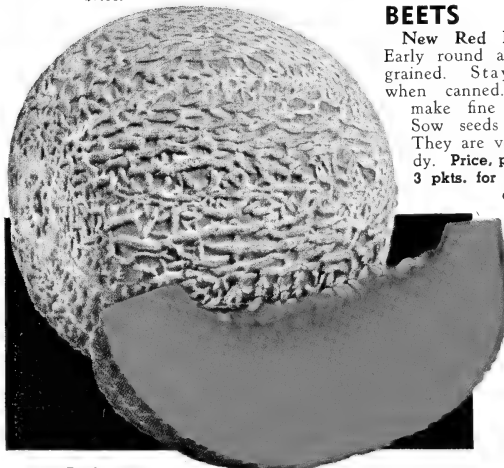

Here are 9 garden vegetables that I have personally selected for you to grow. I use these in my own garden. They are the cream of all varieties. Order these seeds early, as seeds of these varieties are still limited.

## **BEANS**

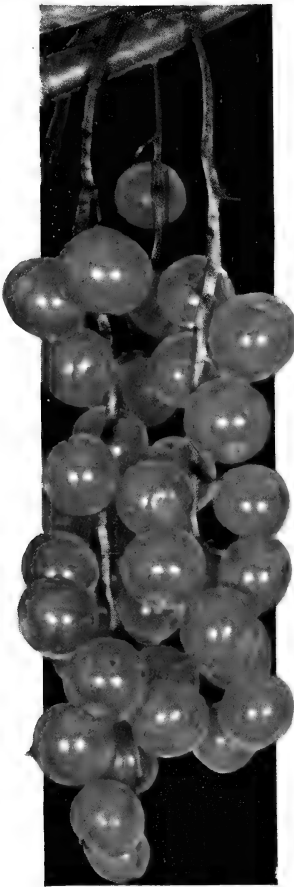

Stromer's white-seeded green-podded tender beans. Absolutely stringless. This is the only white-seeded green bean known. It is also a fine flavored bean when left to get ripe, and shelled like a navy bean. Try these this year at this reduced price. ½ lb., 25c; 1 lb., 40c; 2 lbs., 75c; 5 lbs., \$1.50. POST-PAID, NO DISCOUNT.

## **BEETS**

New Red Fireball. Early round and fine grained. Stays red when canned. Tops make fine greens. Sow seeds early. They are very hardy. Price, pkt., 10c; 3 pkts. for 25c. No discount.

Rock-O-Honey

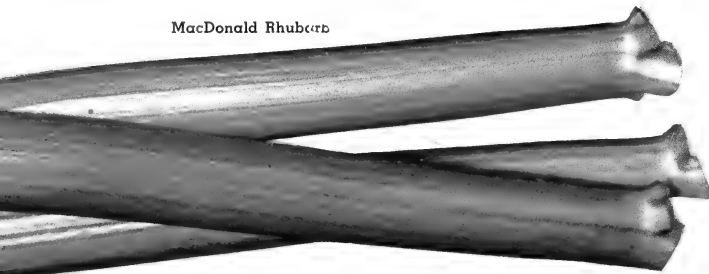

Red Lake

## PERFECTION CURRANT

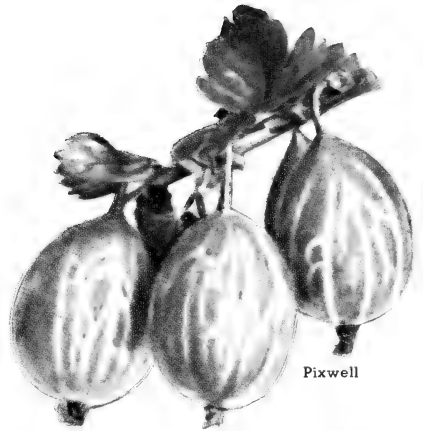

This is the old reliable variety that has been grown for many years. It's the largest red Currant except the Red Lake. They are both very fine, heavy, annual bearers. Perfectly hardy. Prices: 2-yr.-old No. 1, strong plants, each 30c; 4 for \$1.00; 10 for \$2.60; 25 for \$5.00; 100 for \$17.50, LESS DISCOUNTS. 3-yr.-old plants, 50c each; 3 for \$1.35, LESS DISCOUNTS.

MacDonald Rhubarb

## PIXWELL Gooseberry

This is the new gooseberry originated by Dr. A. F. Yeager at the North Dakota Experiment Station. As the name implies it "picks well." The berries hang down on slender stems about 2 inches below the branches. This feature together with the fewness and relative softness of its thorns makes picking the fruit a quick and easy operation. Pixwell is absolutely hardy and a good vigorous grower, producing large bushes that carry heavy loads of fruit. The berries are large, oval, an attractive light green color when immature, ripening to pink. Price, 2-yr. No. 1 plants, each 50c; 3 for \$1.35. Less discount.

Pixwell

## RED LAKE Currant

This new, better and extra hardy large red Currant comes from Minnesota. This Red Lake is the last word in Currants and you will really want a few plants of them even if you think you have plenty of Currants already. Produce long large red clusters that make up into excellent jelly. Ships well, and is the best commercial variety to grow.

Red Lake prices: 2-yr. No. 1, each 35c; 3 for \$1.00; 6 for \$1.75; 10 for \$2.60.

## Mary Washington Asparagus

1-Yr. Roots  
Less Discount  
RUSTPROOF **\$1.50**

There is no variety of Asparagus as good as Mary Washington, and whether for home use only or for market, you cannot afford to grow any other. This wonderful new Asparagus was developed and introduced by the U. S. Department of Agriculture, and although a recent introduction, it has become famous the country over.

Growers everywhere are discarding all other varieties in favor of Mary Washington, because it is earlier, the stalks are larger, more tender, more productive than any other variety, and last but not least, Mary Washington is immune from rust.

## Victoria Rhubarb

Early, tender, with subacid mild flavor. This is the next best variety outside of MacDonald. Price nice large roots: Each, 12c; 6 for 50c; 12 for 90c; 25 for \$1.50; 100 for \$5.00. Extra heavy (3-yr.) clumps, each 25c; 6 for \$1.00; 12 for \$1.75.

## MacDonald Rhubarb

The best Rhubarb you can buy. Bright cherry-red color full length of the long stems. Very good producer, tender and fine flavor. You do not need to peel MacDonald, it's so tender. Stays bright red when in sauce or pies. Stems get 2 feet long, and thick as a corn stalk. Price on strong divisions: 40c each; 3 for \$1.00; 10 for \$2.95; 50 for \$15.00.

## Horseradish Roots

This is the good old Bohemian horseradish. Will grow any place from high light sand to rich bottom land. Grates up fine and tender. White as snow, and strong as Samson. Price: 6 roots for 35c; 12 for 55c; 100 for \$2.00. Entire 2-yr. clump, each 20c; 12 for \$1.50.

## Early PARADISE The New Giant Asparagus EARLIEST OF ALL

Paradise is the new variety that was introduced recently in the west. It is wilt and rust proof, but the remarkable feature of this new variety is the giant size of the stalks. It is easy to grow, and a bed will last 15 to 20 years if properly taken care of. The flavor is excellent. It's tender and juicy. Six to eight stalks known to make a pound. May be cut a year sooner, and on account of it being early, will make you the most money.

# Stromer's Profitable AP Buy Our 3-Year-Old

Yellow  
Transparent

## YELLOW TRANSPARENT

The finest extra early yellow apple. It ripens in July and the season continues to September. The fruit is of medium size, and can be used for pies and sauce before it is entirely ripe. The flesh is white, mild, juicy, and sweet. Trees grow upright, and can be planted at much less distance than most other varieties. Bears young and regularly. 2- and 3-yr. sizes available.

McIntosh

## NORTHERN SPY

This fine well-known winter variety is juicy, of excellent flavor, fine for cooking and baking, as well as about the best eating apple of them all.

Northern  
Spy

## TURLEY WINESAP

This is a great Indiana commercial apple. Fruit very large and much redder than other Winesap. Trees bear in 5 or 6 years, and regular. 2-yr. and 3-yr. trees available.

## BALDWIN

This widely known variety needs no lengthy description. Fruit medium size, dark red, rich, juicy, winter-keeping apple. 2-yr. and 3-yr. sizes available.

## R. I. GREENING

Large, greenish yellow, tender, juicy and rich. Excellent keeper. Trees grow large, and bear regularly. 2-yr. and 3-yr. trees available.

## McINTOSH

McIntosh is a late fall apple. The fruit is red, good size, with white flesh. We would say that it takes the place of the old-fashioned **Snow Apple**. It's an eating apple. Trees grow fast and bear young. Not a winter keeper. 2- and 3-year sizes available.

VEST POCKET  
PEAR—Page 17

## VEST POCKET APPLE TREES 6 Varieties All on One Tree!

This is not just a novelty but a wonderful idea where folks have just a limited space to plant trees. This **Vest Pocket** apple tree will give you six varieties all on one tree. From early to late winter apples. This combination is Double Red Delicious, Yellow Delicious, Dark Red Jonathan, Wealthy, and Crimson Winesap, all budded on Yellow Transparent stock. This will give you 6 varieties. We offer trees that are 2-yr.-old and 9-16 to 11-16 inch. The price is \$1.60 each; 2 for \$3.00. **NO DISCOUNT.**

## YELLOW DELICIOUS

Late fall. This beautiful new apple has the distinctive shape and big size of Red Delicious with an added deli-

Jonathan

## JONATHAN

Everyone knows that Jonathan is second best seller on any market. Red Delicious being No. 1. Jonathan is a first class eating apple. Not such a good cooker. Fruit dark red, flesh white, and a good keeper. Trees bear young, and yearly. There are more Jonathan and Red Delicious set than all the rest of the varieties combined. 2- and 3-yr. old sizes available.

Cortland

## CORTLAND

The young bearing habits of this fine new apple has astonished growers everywhere. It is one of the greatest eating apples, and also a good shipper. It is an offspring of the famous McIntosh. Clings to the trees till picked. Bears 2 or 3 years after planting. Fruit most highly colored red, fine grained, crisp and juicy. 2- and 3-yr. size trees available.

## OLD TIME APPLES

We are offering a few of the old-time apple varieties for your convenience. Here they are:

**Golden Russet  
Red Astrachan  
Sweet Bough  
20-Ounce Pippin  
Maiden Blush**

It costs more to grow just a few of each variety, so the price will be 75c each for 2-yr.-old, 9/16 to 11/16 in. trees. No. 1. NO DISCOUNT.

## LOST LABEL APPLES

Each year we have a few apple trees where the labels have been broken off and lost, so that we do not know the variety. They are 2-year and 3-year size trees, so will offer them at 25c each. NO DISCOUNT.

## GRIMES GOLDEN

This is a wonderful yellow late winter keeping apple. Without any doubt it is the best pie and cooking apple we have. Fruit medium in size, firm and crispy. Bears young. Plant one at least. 2- and 3-yr. sizes available.

## HYSLOP CRAB

This has always been the leading Crab. Fruit medium to large, dark red. Good quality. Good keeper. Trees bear young. Ripens in September. 2-yr.-old, 9/16 inch, each 75c. 3-yr.-old trees, \$1.00 each.

## WHITNEY CRAB

The largest of all Crabs. Excellent quality. Yellow color striped with carmine, pleasant flavor. Thrifty growing tree that bears young. Ripens August to September. Price for 2-yr.-old trees, 75c. 3-yr.-old trees are \$1.00 each.

## DWARF APPLES

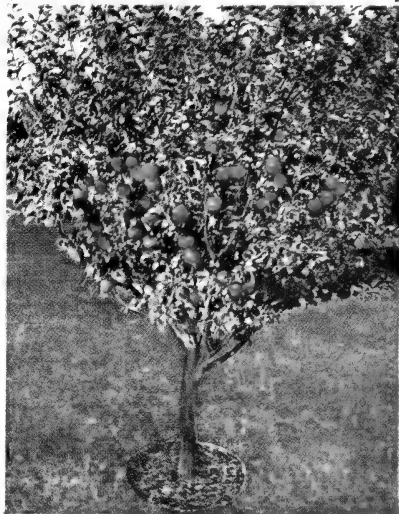

We have a limited amount of these trees in Double Red Delicious and Yellow Transparent varieties. They are 3-yr.-old. Each, \$2.85. NO DISCOUNT.

## DOUBLE RED DELICIOUS

This variety is far superior to the common red Delicious as it is highly colored all around, with no green sides. Double Red Delicious is America's number one apple. It tops the market every time, and seems to bear in a wide range of soils and climates. The fruits are very large, solid red, with the five points, and rather long in shape. Truly a most beautiful apple, and the best eating apple of them all. Flesh slightly yellow, and semi-sweet flavor. 2- and 3-year-old sizes available.

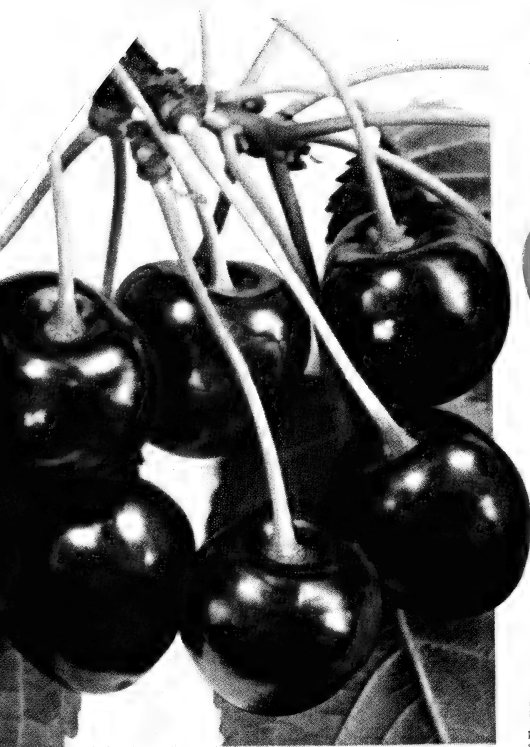

## ANOKA THE OLD FOLKS' APPLE

Bears first year. No waiting for fruit if you plant Anoka. Hardy in all climates. The best early summer apple of them all. Makes the best of sauce and pies. The fruit is large and striped like a Northern Spy. The trees are not exactly dwarf, but will never grow very large because they start to bear so young. Just the thing for old folks who would not think of planting ordinary apple trees. 2- and 3-yr.-old trees available. Have borne in the nursery row.

A 4-Year-Old Anoka

Windsor

## Stromer's Cherries

**BLACK TARTARIAN** Here is one of the best all around big black sweet cherries. Trees are vigorous upright growers, and produce enormous crops year after year. Fruit is large purplish black, shaped round with small pit. Flavor is rich. Juicy. Ripens the last of June to early July.

**WINDSOR** Large liver-colored dark sweet cherry. One of the best. Sweet, firm and brittle. Ripens middle of July. Little larger fruit than Black Tartarian, and later. Hardy, vigorous.

**PAUL ROSE** Here is quite a novelty. Lack of space prevents us illustrating this high quality sweet Cherry. It's about like the Black Tartarian except that each cherry will have a real dark band around the entire cherry. Quality excellent. Large, juicy, black, sweet. Try one and have something different.

**NAPOLEON** Large heart-shaped, beautiful golden yellow sweet cherry. Flesh is firm and brittle. Small pit. Very sweet. Ripens in July. Trees vigorous and hardy.

**LARGE MONTMORENCY** This is the largest of all pie cherries. Fruit is large, bright red, and juicy. Ripens about 10 days after Early Richmond. This is the variety that is most widely planted in all cherry-growing sections. Bears second or third year. Very hardy.

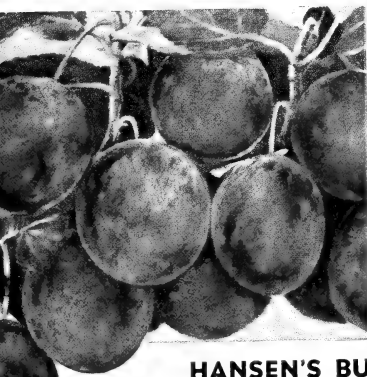

**EARLY RICHMOND** This is the earliest of all pie cherries. Fruit medium size, bright red, and juicy. Ripens early June with strawberries. Fine for canning and pies, as well as eaten fresh from the tree. Starts to bear young, and is very hardy. The kids will thank you if you plant a tree or two for them to climb and eat cherries, as no other fruit will take the place of a tree full of nice ripe juicy cherries.

### SWEET AND PIE CHERRY PRICES

Large 3-year sizes are \$1.25 each. All prices less discounts.

### HANSEN'S BUSH CHERRY

The New Quick-Bearing Cherry  
EASY TO GROW — SURE TO PRODUCE  
Highly Productive — Good Flavor — Hardy Everywhere

Though the fruit of this new Cherry much resembles a Plum in size and shape, it comes massed in clusters and at times almost completely covers the limbs. The tree itself grows in a sort of dwarf bushlike shape, rarely getting over 4 or 5 feet tall. In landscape planting these Bush Cherries are also desirable, as they are of striking ornamental value.

Plant These Hansen Bush Cherries Because:

- 1—They are so easy to grow and are perfectly hardy everywhere.
- 2—Are good to eat fresh, and make delicious preserves.
- 3—Bear from the ground up, early, heavily, and annually.
- 4—Are dwarf growing, bushy, and take up little room.
- 5—Excellent for hedges, ornamental shrubs and erosion control.

Fruits in one year. Large three-year-old Bush Cherries, ready to bear this year.

Hansen's Bush Cherry in Bloom

Prices: Each, 50c; 3 for \$1.00; 10 for \$2.50; 25 for \$5.00; 100 for \$15.00.

### ORANGE QUINCE

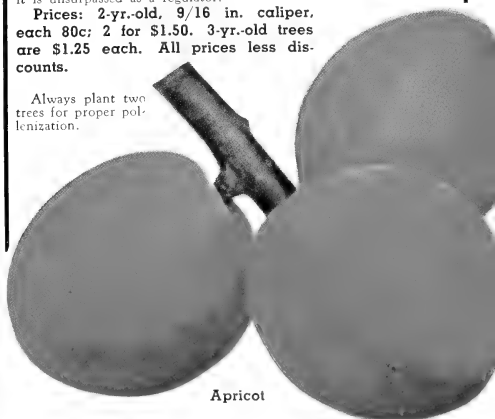

We list only this one Quince as we consider it by far the best. The trees commence to bear very young and produce big crops. Fruit is excellently flavored and of large size. Two-year-old trees, each, \$1.00; 3 for \$2.75. Three-year-old, \$1.35 each.

### Taste-Tempting APRICOTS

Produces good size fruit of an orange-yellow color with a little darker red cheek. Very delicious flavor, with small freestone pit. They are very productive and bear young. As hardy as a peach, and as easy to grow. Ripens in August. Excellent when canned or eaten fresh. Apricot should be called the health fruit, because it is unsurpassed as a regulator.

Prices: 2-yr.-old, 9/16 in. caliper, each 80c; 2 for \$1.50. 3-yr.-old trees are \$1.25 each. All prices less discounts.

Always plant two trees for proper pollinization.

Apricot

Napoleon

Stanley Prune

## Hardy PLUMS

### NEW EMBER

A new origination of the Minnesota State Fruit Breeding Farm. A late plum of good size with fine dessert and canning qualities. It is yellow with attractive red blush. It hangs to the trees until fully ripe, and keeps in good condition for weeks.

### BLUE DAMSON

Everyone knows the Blue Damson variety. There is always a big demand.

### SAPA

Its beautiful wine-red color, excellent quality and delicious flavor have made Sapa the most popular plum for northwest fruit farms. It is a large sized hybrid plum with small pit. Thin skinned, purple-red outside, with rich dark wine-colored flesh.

Sapa should be grown in bush form and pruned severely to encourage growth of new shoots that will fruit heavily and regularly.

Green Gage

### Russian Mulberry

If you plant cherry trees this year or now have cherry trees growing, plant a Russian Mulberry for the birds. They will leave your cherries alone, and eat the Mulberries. One tree is enough. Price: 75c each. Large, 5-6 ft. tree.

### STANLEY PRUNE

This new purple (Prune) plum is superior to all plums or prunes. It often comes into bearing the third year, and ripens 10 days earlier than the German Prune. Very hardy, and a very thrifty grower. Fruits are large, bluish purple, sweet, rich and fine. (Freestone.) Excellent to eat fresh and best of all for canning. It's also a money-maker on the market. Get started now.

### FIEBING

This big red plum was originated in Minnesota. Fruits ripen early and are extremely large in size. Beautiful red color, with freestone pit. Equal to any California plum in quality, size and appearance. It's a good one.

### Csaba Grape

(Pearl of Csaba.) Hardy, north European grape, developed as a hybrid in Hungary. Has withstood severe winters of Eastern Washington, over 30 degrees below zero without damage. Fruit medium size, seeds small and not noticeable. Pleasing, spicy, slightly Muscat flavor. Ripens very early—about 10 days to 2 weeks before Moore's Early, 30 days before Concord. Excellent table grape. Good wine grape. Price, 50c each; 3 for \$1.35. 2-yr.-old No. 1 plants.

### GREEN GAGE

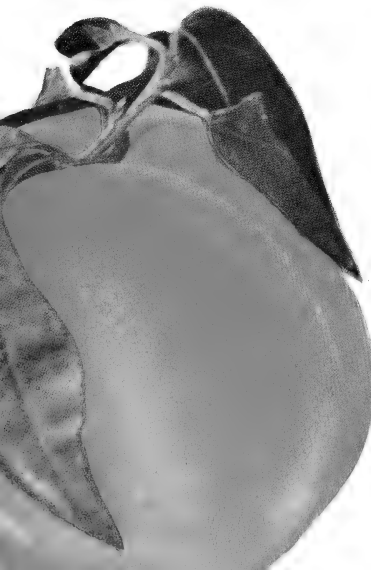

Large round greenish yellow plum with a remarkably sweet flavor. Almost lacking of any acid. Tender yellow flesh with freestone pit. Hardy, regular bearer.

Fertile  
Hale

## FERTILE HALE

This new introduction was brought about by the Greening Nursery Co. It has been produced by bud selection and has been found to need no other variety to help pollinize it like J. H. Hale does. This Fertile Hale will produce full crops of beautiful Hales even more beautiful than the J. H. Hale. The Fertile Hale is far more hardy and productive in bud than the common J. H. Hale. At the experiment station in South Haven, Michigan, Fertile Hale came through with a crop when J. H. Hale and Elberta failed. Flesh yellow, with yellow skin with deep carmine blush. Good shipper. Freestone. Will bring the highest price on any market. Fertile Hale, like South Haven, are real money makers on account of their hardiness and fine quality. They are the two commercial Peaches to grow for profit and pleasure. Fertile Hale has a plant patent applied for. Our trees are the genuine.

## ELBERTA

This is the standard market peach wherever you go. Fruit very large, oblong shape. Yellow, freestone, and tender flesh with a firm skin, which makes it the best shipping peach. Ripens first week in September. Flesh turns to deep red near the pit. Good canning variety.

6/8 ft. tall, 3-year-old Elberta. Bore in nursery row. Giant trees—each.  
**\$2.00**  
Net. No Discount.

*The Best of the Better*

# PEACHES

## HALE-HAVEN

Introduced by the Michigan Experiment Station. It is a cross between the J. H. Hale and the South Haven. Freestone. Yellow flesh. Firm. Excellent quality. Ripens last week in August. This is what we consider the very best peach of them all. Trees are strong growers, and hardy. This variety will make you big money and should be planted extensively. No better variety ever introduced for canning and eating fresh. See cover for actual photo—reduced to one-half size.

## REDELBERTA

(U. S. Plant Patent No. 232.) A Bud sport of the famous Elberta. Identical with the common Elberta except that it ripens 10 days earlier and has double the red color. It is ready to pick when red, and therefore can be placed on the market sooner to get better prices. The coming commercial peach. This is a patented variety. Prices, 9/16 inch, 4-5 ft., each 70c; 12 for \$6.60; \$30.00 per 100. SUPER SIZE, 3-yr., 5-7 ft., 80c each; \$7.20 per 12; \$35.00 per 100.

## SOUTH HAVEN

This is the pollinizer variety as well as the best variety next to Hale Haven. South Haven is the hardiest variety except Hardee. It is a commercial variety as well as a fine canner and home use kind. Freestone, yellow flesh. Tender, sweet. Large. Ripens about 18 days before Elberta. Don't fail to order them to pollinize your other trees of different varieties.

## POLLY

This is the hardiest of all white peaches. Originated at the Iowa Experiment Station, withstands 20 degrees below zero. You folks who live out of the peach country should plant Polly. This is a home use variety, as it's too soft to ship very far. The fruit is large, white and freestone. Ripens a few days ahead of Elberta. Polly has an outstanding delicious flavor that you will never forget.

## PEACH PRICES

Except Redelberta  
2-yr.-old, 9/16 inch, 4-5 ft.

2 Caco, 2-yr. No. 1

Worth \$2.70  
10 Extra Fine Vines for only

**\$1.25**

NO DISCOUNT

## SEEDLESS CONCORD

After years of experimentation and cross-breeding, a perfectly hardy seedless Grape has been developed. The first of a new race of Grapes that should eventually replace the common large seeded varieties for table use. It is of the Concord type, but slightly smaller, blue-black in color, and possesses the same fine flavor found in the Concord Grape. One-year-old, field-grown stock, \$1.25 each; 3 or more at \$1.00 each.

## CONCORD

Concord is beyond a doubt the most popular blue grape. More Concord are planted than all other varieties. It is the commercial table and wine variety. Concord is perfectly hardy, having stood 30 degrees below zero without injury. Does well on any soil, but makes the sweetest fruit on light sand that has been well fertilized. Bunches are large, compact and well shaped. Sweet and juicy. Vines grow fast, and bear second year.

## GOLDEN MUSCAT

This new hardy California yellow grape can now be grown anywhere, because it's hardy enough. The berries are large, and form a big compact bunch that is very attractive. Quality is of the best, fruit being meaty with the Muscat aroma. Be sure to have at least one plant of this new variety in your garden or back yard, and be convinced. 2-yr.-old No. 1 plants, 95c each; 3 for \$2.50; 10 for \$7.00. 3-yr. bearing-age size, \$1.50 each. LESS DISCOUNTS.

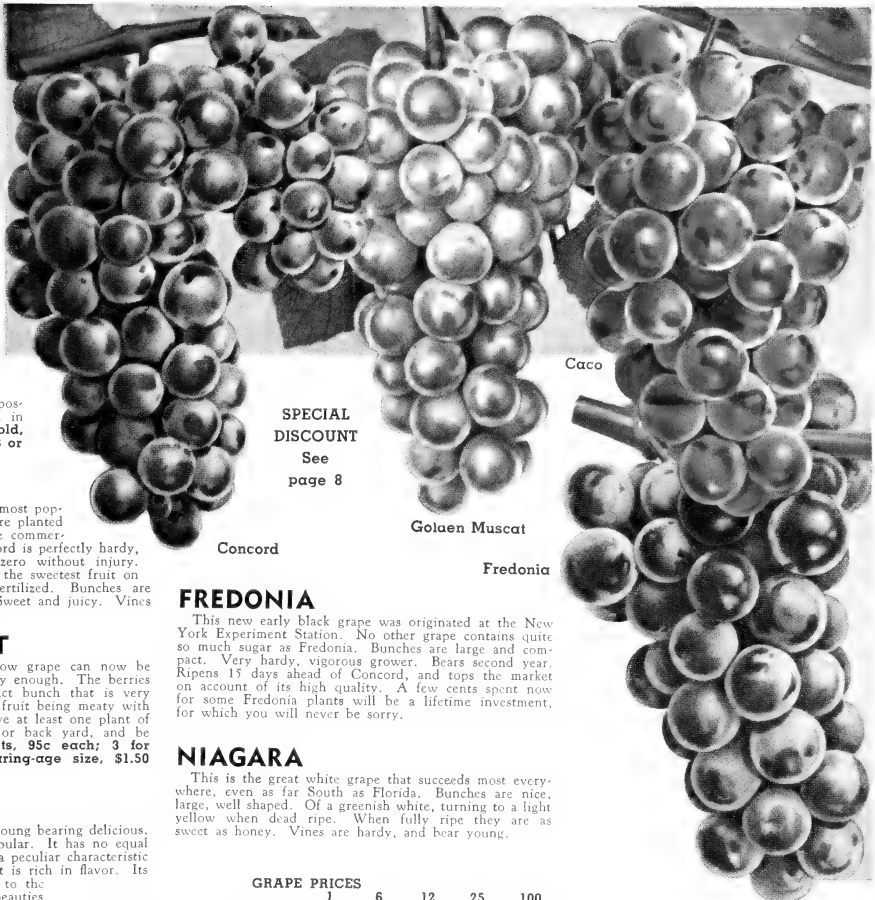

## CACO

This is the new quick growing, young bearing delicious, sweet, big red grape that is so popular. It has no equal as a home use table grape. It has a peculiar characteristic found in no other grape, in that it is rich in flavor. Its deep wine-red color is so pleasing to the eye. A vine full of these rich red beauties is a sight. They are so easy to grow that everyone should have a few vines in the back yard. Ripening in September like they do, the crop will be harvested long before killing frosts. Always in demand at fancy prices, and roadside stand owners make big money with Caco. Bunches are large, well formed, and make a fancy package. Hardy.

**BARTLETT** The most popular home use and commercial variety. Large yellow with red cheek. Flesh tender and juicy. Bears every year, and lives on and on. Bartlett's the canning pear. 2-yr. each 60c; 3 for \$1.65; 5 for \$2.60; 10 for \$5.00; 25 for \$12.00. 3-yr.-old, each \$1.00.

**SECKEL (Sugar Pear)** Yellowish russet, rather small size with red cheek. Flesh white, and very juicy and sweet. Ripens in August. Fine for pickling. 2-yr., each 60c; 3 for \$1.65. 3-yr., each \$1.00.

**KIEFFER (Winter Keeper)** Large size, handsome appearance and remarkable keeping and shipping qualities. October-November. Price, 2-yr., each 60c; 3 for \$1.65. 3-yr.-old, each \$1.00.

SPECIAL DISCOUNT

See page 8

## FREDONIA

This new early black grape was originated at the New York Experiment Station. No other grape contains quite so much sugar as Fredonia. Bunches are large and compact. Very hardy, vigorous grower. Bears second year. Ripens 15 days ahead of Concord, and tops the market on account of its high quality. A few cents spent now for some Fredonia plants will be a lifetime investment, for which you will never be sorry.

## NIAGARA

This is the great white grape that succeeds most everywhere, even as far South as Florida. Bunches are nice, large, well shaped. Of a greenish white, turning to a light yellow when dead ripe. When fully ripe they are as sweet as honey. Vines are hardy, and bear young.

## DWARF PEARS

We offer Dwarf Pears in Bartlett only. These Dwarf trees have borne in the nursery row, being three years old. The price is \$1.75 each. NO DISCOUNT.

## SEEDLESS PEAR Brand new variety. Practically seedless.

Solid all the way through. Ideal for canning. No waste. It is of the Bartlett type, pure white flesh with yellow blushed skin. Ripens 10 days later than Bartlett, and trees bear when 3 years old. A 5-year tree known to bear 3 bushels of fruit. Price, 2-yr.-old, 9/16 inch, each \$1.25. SUPER SIZE trees, each \$1.75. (Should bear a year sooner.) No discount.

Seedless Pear

## VEST POCKET PEAR TREES

Here is a practical novelty for you folks with a limited amount of space for planting trees. Five varieties of Pears—Garber, Bartlett, Seckel, Clapp's Favorite and neighbor—these trees now and gain the Plant these trees and have them envy of all your friends and neighbors by being the first to 6 ft. each. 1 1/16 inch grade, \$1.40 each. 1 1/8 inch grade, \$1.50 each. 3-yr.-old, 1 inch trees, \$2.25 each. No discount. We also have these vest pocket trees in apples.

# Stromer's Ornamental SHADE TREES

## Mountain Ash, European

A fine shade and ornamental tree. Covered from July till midwinter with large clusters of bright red berries. 5-6 ft., \$1.25 each.

## Lombardy Poplar

A tall, shaftlike column that grows quickly. Makes a fine effect planted along driveways. 5-6 ft. trees, each 30c; 2 for 55c; 5 for \$1.25; 10 for \$2.00.

## Schwedler Maple

Similar to the Norway Maple except that the foliage is of a bright red early in the spring, turning to a beautiful rich bronze-red later and holds its color until fall. 8- to 9-ft. trees. Each, \$1.85; 2 for \$3.25.

Schwedler Maple

## Mugho Pine

Our Dwarf Mugho Pine are the dwarf Pincushion type. Compact and hardy. We offer plants six inches tall and a 6-inch diameter top, 5 years old. These dwarf plants are slow growing but so far superior to the Montana Mugho. Each 75c; 2 for \$1.35; 10 for \$6.25.

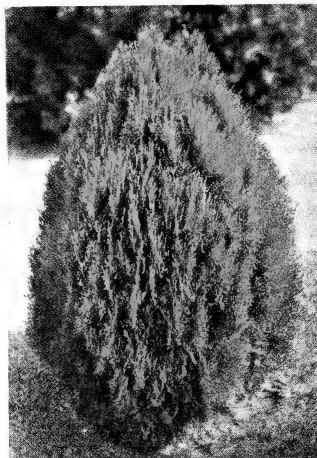

Mugho Pine

## Pyramidal Arbor-Vitae

Dark green foliage. Hardy. Pyramidal shape. Grows anywhere. Plant one on each side of your garden gate or the entrance to your home. Prices, 6-8 in. transplants, each 25c; 2 for 45c; 5 for \$1.00; 10 for \$1.75. 12-18 inch transplants, each 75c; 2 for \$1.40; 5 for \$3.00; 10 for \$5.00.

## Golden Arbor-Vitae (Dwarf)

A beautiful shape tree. (See picture.) Golden green color, and just the thing to add some color to your planting. Hardy. Very compact, flat leaved, and fast growing. 15-18 inch trees, each \$1.35; 2 for \$2.50. 18-24 inch trees, each \$1.85; 2 for \$3.50. 24-30 inch trees, each \$3.00; 2 for \$5.50.

Dwarf Golden Arbor-Vitae

## Weeping Cutleaf Birch

The Queen of all Birches is this unusually graceful, drooping tree; particularly adapted as a lawn specimen or in groups of three trees for outstanding background. The bark is very white. 5-6 ft., each \$1.75. 8-10 ft., 1 inch, each \$3.50.

## European White (Clump) Birch

This is the birch that sprouts. 3 to 4 trunks on one root system. White bark. Very artistic. Price, 4-5 ft. trees, each \$1.00; 2 for \$1.90; 10 for \$8.50.

## Niobe Weeping Willow

trees. Net, No Discount. **\$750**

## The Sensational New Buddleia ROYAL RED

Plant Patent Applied For.

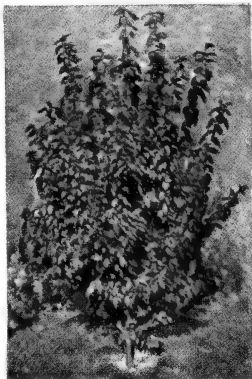

In presenting Buddleia Royal Red we believe we are introducing a new hardy plant that will be the sensation of the plant world for years to come. Royal Red represents 8 years of intensive breeding work, culminating in the first truly red Butterfly Bush. As a hardy summer cut flower plant and as an ornamental lawn shrub, Royal Red is unsurpassed in beauty and usefulness. From July until frost the plant produces an abundance of rich dazzling red panicles that attract instant attention. For garden planting, Royal Red is one of the most beautiful hardy plants that has ever been produced. The plant is hardy, grows 4 to 6 feet high and the foliage is deep leathery green. The sturdy plants we offer will flower abundantly the first year. Price, 75c each; 2 for \$1.25. Postpaid. NO DISCOUNT.

## PFITZER'S JUNIPER

This is one of the most popular Junipers. Spreading type, very hardy. Grows anywhere, even in shade. Wet or dry. Silvery green foliage. 12-15 inch plants, each 75c; 2 for \$1.40; 10 for \$6.00. 24-30 inch, B&B, each \$4.00; 2 for \$7.50.

# Flowering TREES and SHRUBS

Prunus Newport

## PRUNUS NEWPORT

This ornamental flowering Plum is one of the finest. Upright spreading bush form. Dark red foliage all summer. In spring it will be covered with dainty white flowers. No fruit. A few of these in your yard will really add a splash of color to your landscape planting. 2-3 ft. trees, each 65c; 2 for \$1.10; 10 for \$5.00. 5-6 ft. size, each \$1.25.

## PAUL'S SCARLET THORN

This is about the most beautiful tree. In early spring it will be covered with double brilliant scarlet blossoms, followed with red berries in the fall. 5-6 ft. trees, each \$1.95; 2 for \$3.60.

Globe Arbor-Vitae

## GLOBE ARBOR-VITAE

A dwarf evergreen with compact globe shape. Dark green. 3-yr.-old. 10-12 inch trees, each 55c; 2 for \$1.00.

## TREE FORM PERSIAN LILAC

Most Persian Lilacs are of a low spreading bush form. We have a limited supply of real tree-form plants. 4-5 ft. trees, each \$1.00; 2 for \$1.75.

President Lincoln

Pfitzer's Juniper

## FRENCH LILACS

**PRESIDENT LINCOLN.** This is the only Wedgwood-blue Lilac in existence. Large trusses. Blooms young. Hardy. 18-24 inch plants, each \$1.00. 2-3 ft. size plants, each \$1.50.

**MME. FELIX.** Large trusses, single white. Early bloomer.

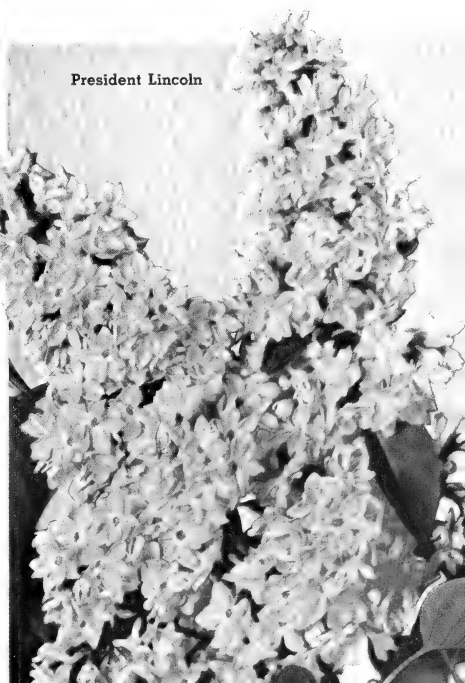

**LOUIS SPAETH.** Large single purplish violet. Very sweet scented.

**MME. ANTOINE BUCHNER.** Double, rose shaded mauve, with carmine buds. Late. 18-24 in. plants, each 50c (one of each for \$1.35.)

## BECHTEL'S FL. CRAB

This is the finest of all the Flowering Crabs. Blooms are double, delicate pink, and 2 inches in diameter. It is almost impossible to see any part of the branches when in full bloom, as it blooms so profusely. 2-3 ft. trees, each 75c; 2 for \$1.25. 6-8 ft. trees, each \$2.50.

← Bechtel's Flowering Crab

## Giant Flowering DAHLIAS

Everyone loves these big gorgeous beauties. We offer a few of the best.  
**JANE COWL.** Large coppery yellow. Tall grower and vigorous.

**JERSEY'S BEAUTY.** (See picture.) Finest pink. Vigorous, free bloomer.

**MRS. GEO. LE BOUTELLIER.** Rich velvety carmine, giant strong stems. Best red.

Irish  
Juniper

Jersey's  
Beauty

## Irish Juniper

Of decided columnar form and immediately attracts attention. For formal work, especially in contrast with other plants, it has decided advantage over anything you can use for such work. It is slender in habit and needs no shearing. 15-18 in. trees. 3-yr.-old. Each, 50c; 2 for \$1.25; 10 for \$3.75.

## African Violet, "Blue Boy"

A beautiful rare new Violet that is becoming very popular. Large, violet-blue flowers with exquisite fragrance. Perfectly hardy everywhere, and grows equally well in the shade as in full sunlight. A really fine plant to have. 35c each; 2 for 65c; 3 for 90c; 6 for \$1.50. POSTPAID. NO DISCOUNT.

## HARDY FILBERT

Can be grown anywhere. Perfectly hardy. Large, well-filled nut. Bears young. Price, 2-3 ft., 75c; 2 for \$1.25.

## BLACK WALNUT

Hardy, fast growing. Valuable for nuts and lumber. 5-6 ft. trees. Each, 75c; 2 for \$1.25.

## PEONIES

**SARAH BERNHARDT.** 9.0. Rich apple-blossom-pink with silvery edges on petals. Fragrant. Midseason. 3-5 eye divisions. Each, 75c; 3 for \$2.00; 12 for \$6.00.

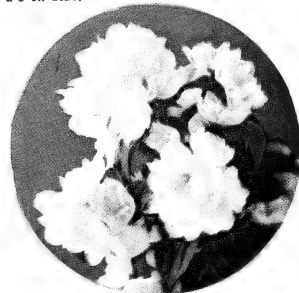

**KARL ROSENFELD.** 8.8. Very large brilliant velvety crimson. Fragrant. Midseason. 3-5 eye divisions. Each, 50c; 3 for \$1.35; 12 for \$4.00.

**FESTIVA MAXIMA.** 9.3. Early. Immense flowering pure white, flecked with crimson. Truly a beauty. 3-5 eye divisions. Each, 50c; 3 for \$1.35; 12 for \$4.00. (One of each of the above varieties only \$1.50.)

We have a bargain for you on a very fine mixture (not the above varieties) in white, red and pink, single and double. 3-5 eye divisions. Each, 20c; 3 for 50c; 12 for \$1.60; 25 for \$3.00; 100 for \$10.00. NO DISCOUNT.

## Mock Orange, Virginal

This is the new double white Mock Orange that is so fragrant that it will spray a room with perfume when used as a cut flower. No better shrub to dress up the yard. Hardy. 18-24 in. 45c; 3 for \$1.25. 2-3 ft. size, each 60c; 3 for \$1.50.

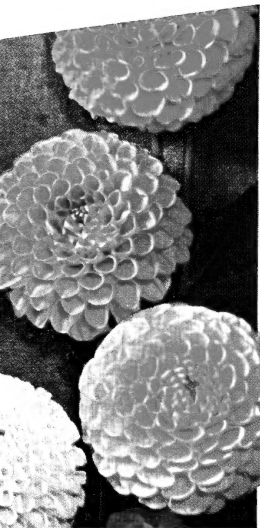

## Wisteria

A tall, vigorous climber. Lilac-purple blooms in June and July. Fine for pillars, arbors or trellises. 2-year plants, 45c each; 3 for \$1.25.

## ← Pompon Dahlias

**AMBER QUEEN.** A beautiful shade of rich amber. Small button type. Compact growth. Blooming most profusely. Each, 20c; 3 for 50c; 10 for \$1.50. **NO DISCOUNT.**

**CARDINAL.** Fiery scarlet blooms, compact button type. Vigorous. Each, 20c; 3 for 50c; 10 for \$1.50. **NO DISCOUNT.**

**CATHARINE.** Very small button blooms of rich yellow. Splendid for cutting. Each, 20c; 3 for 50c; 10 for \$1.50. **NO DISCOUNT.**

**ROSE WILMOTH.** Deep rose-pink. Small button type on long stems. Each, 20c; 3 for 50c; 10 for \$1.50. **NO DISCOUNT.**

**SPY.** This is perhaps the prettiest of all. Orange-scarlet long stems, and very small buttons. Each, 20c; 3 for 50c; 10 for \$1.50. **NO DISCOUNT.**

We offer one of each of the above for 90c, postpaid. **NO DISCOUNT.** Our prices are too cheap to allow any discounts on these Dahlias.

## Korean 'Mums

These new creations are especially fine for extremely cold climates where other 'Mums winter-kill. We are offering a mixture of the most beautiful and lovely pastel shades. They are so dainty and our strong plants set in spring will become 2 feet wide and 3 feet tall by fall, and completely covered with bloom. We offer 10 strong field-grown plants for only \$1.00. Postpaid. **NO DISCOUNT.**

## Redbud - Judas Tree

Beautiful rose-pink blossoms early in the spring before the leaves appear. Grows to a medium size tree, with heart-shaped leaves. We offer 2-3 ft. trees for 40c each; 3 for \$1.00.

## Red Barberry

Foliage is brilliant blood-red in spring. Color holds all summer if grown in the full sunlight. Red berries that will remain all winter. 15-18 inch plants, 30c each; 4 for \$1.00. 2-3 ft. strong plants, 60c each; 3 for \$1.50.

## Althea, Rose of Sharon

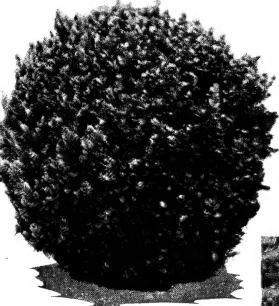

Strong erect growing shrublike trees. Large showy flowers in late summer and fall. We offer a double purple variety. 2-3 ft. strong plants at 40c each; 3 for \$1.00.

**20% DISCOUNT**  
Until Feb. 5

**15% DISCOUNT**  
Until Mar. 5

**10% DISCOUNT**

Net Prices

## Hardy Boxwood

With shiny green foliage, it is a plant that can be used in many ways. As a hedge it gives character. In an informal group it has no rival. It may be clipped or trained to pyramid form, globe shapes, or allowed to grow naturally. 10-12 inch specimens, \$1.25 each.

## Butterfly Bush

**ILE DE FRANCE.** A splendid vigorous variety which will bloom all summer and late into the fall up to a killing frost. Rich reddish purple color. One of the best. 2-yr.-old field-grown plants, each 35c; 3 for \$1.00.

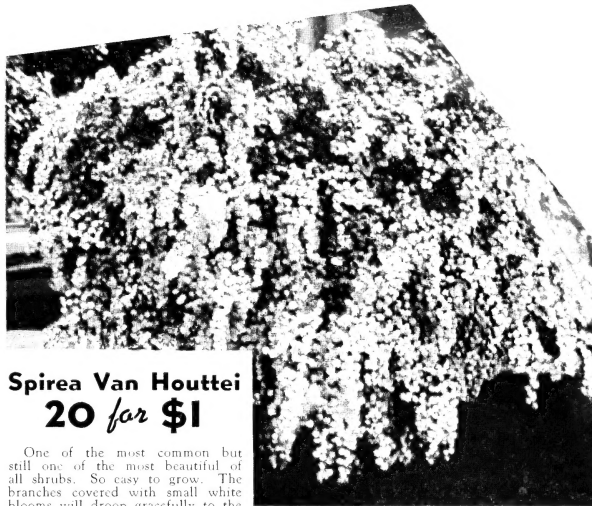

Butterfly Bush, Ile de France

## Hydrangea P. G.

Flowers are extra large, white at first turning to a pretty pinkish purple, and later on in the fall to a perfect bronze. Fine winter bouquet. Blooms July to October. 18-24 inch plants, 40c each; 3 for \$1.00. 2-3 ft. size, each 75c.

Tree Form  
2-3 ft. trees.  
Each, \$1.35.

## Spirea Van Houttei 20 for \$1

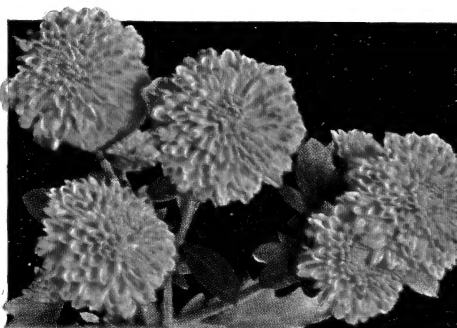

One of the most common but still one of the most beautiful of all shrubs. So easy to grow. The branches covered with small white blooms will droop gracefully to the ground, and it is sometimes called Bridal Wreath. Blooms early spring.

**Prices:** 12-18 inch branched plants, each 10c; 5 for 35c; 10 for 60c; 20 for \$1.00. 3-4 ft., 3-yr.-old plants, HUSKY, each 45c; 3 for \$1.25; 10 for \$3.00.

Spirea Van Houttei

## Chrysanthemum, "Little Bob"

This is an English variety of low growing garden Chrysanthemum which you will certainly want to try. Plants will get to be about 2 feet across and 2 feet tall, and from the last of September to a killing frost it will be a sight. Hundreds of small mahogany-bronze very double button-like flowers will be on stiff wire-like stems. We wish that we had room to illustrate the whole plant. A limited amount to offer at: Each, 40c; 3 for \$1.00; 10 for \$2.50. **LIMIT. Postpaid. (NO DISCOUNT.)**

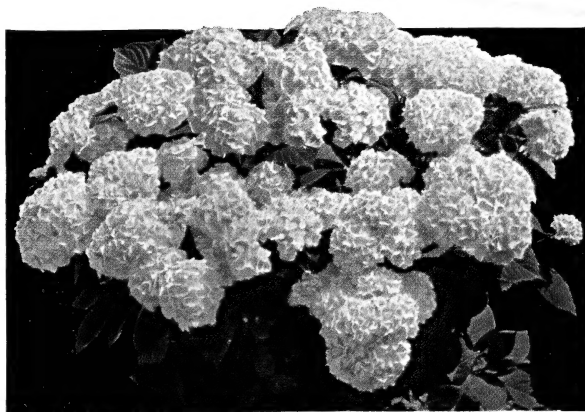

## Mixed Gladiolus

This wonderful mixture is made up of ten of the best and most popular varieties. All strong growers of every color. All giant flowers and many ruffled ones. 25 for 50c; 75 for \$1.00; 100 for \$1.35. Postpaid. Every bulb will bloom this year.

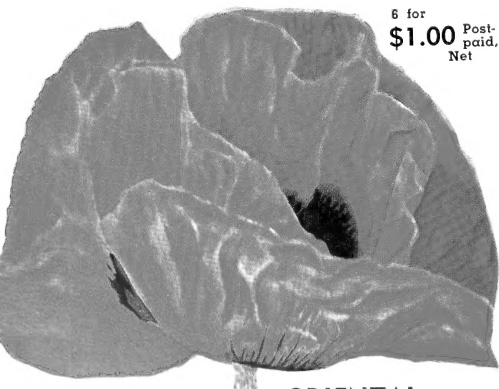

Gardenia

Gorgeous Blue Hydrangea

Chrysanthemum, Hardy Large Flowering

Mrs. Perry

**ORIENTAL  
POPPY**

We offer you six finest varieties of Oriental Poppies, including one of the new Mrs. Perry (like illustration) for only \$1.00. Postpaid. (NO DISCOUNT.)

## Valuable Plants FOR HOUSE and GARDEN

### GARDENIA

Grow your own glorious Gardenias for Mother's Day. This is the flower of romance, spring and summer blooming. It is a house plant. The most fashionable flower of today. Blooms early spring to fall. Beautiful foliage of rich thick glaucous evergreen leaves. Culture same as Geranium. Each, 45c; 3 for \$1.10. Extra select large husky plants at \$1.00 each. **POSTPAID. (NO DISCOUNT.)**

### HARDY LARGE FLOWERING 'MUMS

These are the outdoor type. We offer you ten wonderful plants for only \$1.00. In this collection you will get 1 of the New Early Wonder, peach blossom color that sold for \$1.00 each a year or so ago. Nine other named and selected varieties to make up the 10 plants for only \$1.00. **POSTPAID. (NO DISCOUNT.)**

### BLUE HYDRANGEA

A rare plant of exquisite beauty, which will produce a fine crop of glorious blue flowers measuring 6 to 10 inches across. A few old rusty nails placed in the hole as you plant will assure them to bloom blue and stay blue. Or a teaspoonful of aluminum sulphate will do the trick also. Standard size plants, each 50c; 3 for \$1.25. We have a few EXTRA large husky plants at 85c or 2 for \$1.50. **POSTPAID. (NO DISCOUNT.)**

### HARDY PHLOX

A mixture of ten of the best colors and varieties are being offered at a very low price. These plants will start to bloom 60 days after you set them and a killing frost will have to stop them. These are 2-year-old field-grown plants and thrifty. Price, 10 for \$1.00. **POSTPAID. (NO DISCOUNT.)**

### CUSHION 'MUMS

These Cushion 'Mums are becoming more popular every year.

**GOLD CUSHION.** Imagine 1,200 flowers on a single plant. It's possible with Gold Cushion. Price, 50c; 3 for \$1.25. **POSTPAID. (NO DISCOUNT.)**

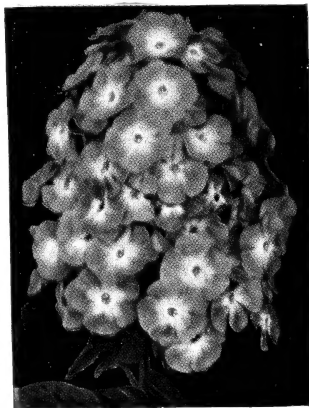

**PINK CUSHION.** Grows to a washtub size first year. Blooms early to late. Price, 30c each; 3 for 75c. **POSTPAID. (NO DISCOUNT.)**

**RED CUSHION.** Brilliant red, and like Pink Cushion gets large in one year. Price, 30c each; 3 for 75c. **POSTPAID. (NO DISCOUNT.)**

**BRONZE CUSHION.** This is a beauty. Bronze color and 1000 blooms open at once. Price, 30c; 3 for 75c. **POSTPAID. (NO DISCOUNT.)**

**WHITE CUSHION.** Same as the others, except that it is snow white, making the plant look like a mound of snow. Price, 30c; 3 for 75c. **POSTPAID. (NO DISCOUNT.)**

**SPECIAL OFFER.** One each of the above Cushion 'Mums for only \$1.00. **POSTPAID. (NO DISCOUNT.)**

Hardy Phlox

Cushion Chrysanthemum

Norway Spruce

A Norway Spruce Windbreak

## NORWAY SPRUCE

Dark green foliage throughout the entire season. Fast growing, hardy and will grow anywhere. High dry ground or low ground and even where water stands. Fine for Christmas trees and for windbreaks. We offer various sizes.

4-6 inch seedlings, each 10c; 5 for 40c; 10 for 60c; 25 for \$1.25; 100 for \$3.50. NO DISCOUNT.

10-12 inch, 4-yr., twice transplanted, each 75c; 2 for \$1.25; 5 for \$2.50; 10 for \$4.00. NO DISCOUNT.

## WEIGELA, Eva Rathke

This is the dark red Weigela that blooms all summer, starting in July. Price: 18-24 inch plants, 35c each; 3 for \$1.00.

## SPIREA, Anthony Waterer

This is the red dwarf Spirea that also blooms all summer. Fine for hedges. Price: 15-18 inch, 35c each; 3 for \$1.00.

## FORSYTHIA (Golden Bell)

Earliest of all shrubs to bloom. Blooms before the leaves start real early in the spring to brighten things up. Often before the last snow is gone. Price: 18-24 inch, 35c each; 3 for \$1.00. Have a few 4-5 ft. plants at 75c each; 3 for \$2.00.

## HYDRANGEA (Hills of Snow)

This is the snowball type Hydrangea. Large blooms in June and lasts all summer. Will grow in the shade as well as sunlight. 18-24 inch plants, 35c each; 3 for \$1.00.

## FLOWERING ALMOND

Small double pink flowers real early in the spring about the time that the Forsythia blooms. 18-24 inch plants, 35c each; 3 for \$1.00.

## GOLDEN ELDER

Golden leaved, white flowers. Must be planted in full sunlight or leaves will be yellow. Purplish fruit in September. 2-3 ft. plants, 35c each; 3 for \$1.00.

## HONEYSUCKLE, RED TARTARIAN

Bright pink flowers followed by bright red berries in the fall. Bush grows upright. Price, 18-24 inch, 35c each; 3 for \$1.00.

## MIXED HOLLYHOCKS

We are offering a mixture of the prettiest colors in both single and double. Price: 20c each; 6 for \$1.00. Postpaid. NO DISCOUNT.

## BOLLEANA POPLAR

This tall shaft-like growing tree is much superior to the Lombardy Poplar. Lives much longer and a stronger grower. 4-5 ft. trees, 25c each; 5 for \$1.00. NET, NO DISCOUNT.

Paul's Scarlet Climber

## CLIMBING ROSES PAUL'S SCARLET

This popular Climbing Rose is one of the best. Intense scarlet flowers are borne in clusters of excellent shape. Free blooming over a long period, but not an everbloomer. Fine large field-grown plants, 2-yr. No. 1, 35c each; 3 for \$1.00. Have a few 4-5 ft. husky 3-yr.-old plants at \$1.00 each.

## FLASH (Plant Patent No. 396.)

This patented Climbing Rose is of orange-scarlet color. Starts to bloom in June and continues for weeks. Have only 3-4 ft. plants to offer at \$1.50 each.

## DOUBLOONS (Plant Patent No. 152.)

This is a pure yellow Climbing Rose that is also patented. Clusters of long pointed buds that will open up into the most beautiful yellow Rose. Have only a few 3-yr.-old plants, 3-4 ft. for \$1.50 each.

## HARDY CUT FLOWER TYPE 'MUMS

We are offering you 10 giant flowering prize-winning varieties for only \$1.00. Start to bloom early and continue into late fall.

One each of the following varieties for only \$1.00. Postpaid.

CHRYSLORA. Best yellow.

GLADYS PEARSON. Apricot.
